AVIATION ACQUISITION: FURTHER CHANGES NEEDED IN FAAS MANAGEMENT AND BUDGETING PRACTICES: Rced-91-159

Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 40 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO reviewed the Federal Aviation Administrations (FAA): (1) progress in incorporating federal acquisition principles into its acquisition process; and (2) budgeting procedures for major acquisitions. GAO found that: (1) since 1990, FAA has undertaken such acquisition reforms as appointing an executive director for acquisitions and revising its acquisition order to increase compliance with federal guidance; (2) such reforms were instrumental in FAA postponement of two premature production contract awards; (3) even though the new orders should help FAA improve its acquisition process, the orders do not indicate the extent to which certain acquisitions will be exempt from federal acquisition processes; (4) although the new orders require every new major acquisition to have a mission needs statement that identifies project purposes and how the project meets FAA needs, the FAA fiscal year (FY) 1992 budget request includes 116.7 million for 10 new projects that do not include such statements; (5) FAA failed to consistently follow federal acquisition regulations or its own criteria for budgeting acquisition activities; (6) FAA does not effectively link its budgeting with its acquisition process for major systems; (7) although FAA acknowledged in its FY 1992 budget request that it was requesting facilities and equipment (F and E) funding for development activities, it did not state the full extent to which it would use F and E funds for such activities, define development work, or identify the projects acquisition phases; and (8) FAA was reluctant to budget development activities in its research, engineering and development (RE and D) account, because of reductions to that account over the years. This item ships from La Vergne, TN. Paperback.
