This book is an outline of the life of one survivor of this virus, and the legacy that remains after survival. It is hoped that it will encourage others with this, or other afflictions to see that there is always a life to be led. It may be far from the life you may have wished for, or indeed the life you might choose, but it is still a life. This story has not reached a conclusion as yet, as there may well be hurdles to jump in the future, but for now this is the living history. This account is written in the victims own words, as he lived it and as he viewed his life. It is a personal account. . . .
