CATALOGUE OF THE BATRACHIA GRADIENTIA S. CAUDATA AND BATRACHIA APODA: IN THE COLLECTION OF THE BRITISH MUSEUM (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Catalogue of the Batrachia Gradientia S. Caudata and Batrachia Apoda: In the Collection of the British Museum The present volume completes the Second Edition of the Catalogue of Batrachians, and if compared with the first edition (prepared by my predecessor nearly thirty years ago) will afford another proof that the collection in the British Museum has held pace with the progress made by science in the intervening period. Like the first volume of this edition, which was published at the beginning of this year, it has been prepared by Mr. Gr. A. Boulenger, who, in the meantime, has entered the permanent service of the Trustees. Our knowledge of the various forms of Tailed and Limbless Batrachians may be considered to be as complete as that of any other order of the Animal Kingdom: possibly Central Asia may yield a certain number of additional species of Newts, and Tropical Africa some hitherto unknown Coeciliids; but we can hardly anticipate that such new discoveries will be fundamentally distinct from the forms with which we are acquainted at present, or lead to modifications of the general results embodied in the summary of the geographical distribution of the entire class of Batrachians which accompanies this volume.
