What keeps business leaders awake at night is a nagging sense of frustration from knowing that their organization could be, and should be, creating better results than it is. Never by Chance teaches business leaders to be intentional leaders. Being intentional means sharing a sense of purpose and direction not only with employees, but also with partners, vendors, and customers. When everything in an organization is intentional, it's the most incredible feeling; there's nothing you can't achieve and no goal you can't reach. The key to success is that it never happens by chance. Never by Chance is about straightforward processes to get people to work together to drive extraordinary results. It requires strong leadership, critical thinking and dedication to sustain focus on what's truly important. Printed Pages: 416.
