Yale University Press. Paperback. Book Condition: New. Paperback. 256 pages. Dimensions: 9.0in. x 6.0in. x 0.7in. In this highly readable book a distinguished group of environmental experts argues that in order to solve global environmental problems, we must view them in a broad interdisciplinary perspective that recognizes the relationships-the interconnected circle-among ecology, economics, and ethics. The contributors-William A. Butler, Paul H. Connett, David Ehrenfeld, Thomas Eisner, Malcolm Gillis, William Goldfarb, Wes Jackson, Gene E. Likens, Norman Myers, David Pimentel, Holmes Rolston III, and Edward O. Wilson-address a wide range of concerns from global atmospheric degradation and spreading toxification of the environment to loss of forests and massive species extinctions. The problem is how to foster economic development that does not ruin the environment. . . . Accomplishing such a task will not be easy, but it may be assisted by collections of expert essays like Bormann and Kellerts Ecology, Economics, Ethics. -Daniel J. Kevles, New York Review of Books In this volume some of the best minds in the business focus their attention on key environmental problems. I recommend it highly. -Paul R. Ehrlich, Bing Professor of Population Studies, Stanford University This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
